SUMMARY

Full-stack MERN developer with 1+ years of experience building scalable websites, REST APIs, and data-driven UIs. Delivered machine learning models with 95% accuracy, developed complete authentication systems, and designed engaging, mobile-first interfaces. Passionate about writing clean, testable code and delivering real-world solutions quickly..

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, HTML, CSS
Frameworks/Libraries: React, Node.js, Express, Redux
Databases: MongoDB, MySQL
Tools: Git, GitHub, VS Code, Excel, Postman
Concepts: REST APIs, JWT Auth, DSA, ML Basics
Practices: Agile, CI/CD, Version Control

PROJECTS

- YouTube-Inspired Video Platform** | *MERN, JWT, Cloudinary* | GitHub May 2025
- Full-featured platform with JWT login, video upload, subscriptions, comments.
 - Integrated Cloudinary for file storage and secure upload access.
 - Responsive UI built with React, React Router; mimics YouTube experience.
- ShoppYGlobe Backend API** | *Node.js, Express, MongoDB* | GitHub Apr – May 2025
- Built APIs for user auth, product CRUD, cart, orders, roles, and access control.
 - Used JWT and Express middleware for secure session handling.
 - Connected with MongoDB via Mongoose; handled errors gracefully.
- ShoppYGlobe Frontend** | *React, Redux* | GitHub Mar – Apr 2025
- Created product list, filtering, add-to-cart, and checkout flow in React.
 - Integrated backend using Axios and managed state via Redux Toolkit.
 - Responsive UI with mobile-first design and protected routes.
- Weather Forecast App** | *JavaScript, OpenWeatherMap API* | GitHub Jan – Feb 2025
- Fetched real-time weather data using OpenWeatherMap API.
 - Responsive layout using Flexbox.
 - Handled errors, city not found, and temperature unit toggle.
- Personal Portfolio Website** | *HTML, CSS, JS* | GitHub | Live Dec 2024
- Built scroll-based portfolio with project gallery, skill set, and contact form.
 - Deployed on Vercel with CI/CD integration from GitHub.
 - Mobile-first design using CSS media queries and transitions.

EDUCATION

Mangalayatan University <i>Master of Computer Applications.</i>	Aligarh, India 2024 – 2026 (<i>Expected</i>)
Institute of Information Technology & Management <i>Bachelor's in Computer Applications – 84.4%</i>	Delhi, India 2021 – 2024

CERTIFICATIONS

• Full Stack Development – Internshala	Dec 2024 – Jun 2025
• Capstone Project Development – Internshala	May 2025
• Node.js, Express, MongoDB – Internshala	Apr – May 2025
• React Web Applications – Internshala	Mar – Apr 2025
• DSA in JavaScript II – Internshala	Feb – Mar 2025
• JavaScript Website Development – Internshala	Jan – Feb 2025
• Git & GitHub Version Control – Internshala	Dec 2024
• HTML/CSS Web Design – Internshala	Dec 2024
• Full Stack Developer – Skill India NSDC	Dec 2024 – Jun 2025
