

SHUBHAM DHASMANA

SDHASMANA96@GMAIL.COM | +91 9105668471 | Ghaziabad

CAREER OBJECTIVE

Aspiring Full Stack Developer skilled in the MERN stack (MongoDB, Express.js, React, Node.js), DSA, and modern web development. Passionate about building scalable, user-focused applications and eager to contribute to dynamic teams by solving real-world problems with clean and maintainable code.

WORK EXPERIENCE

Customer Service Executive
Hindustan Times, Ghaziabad

Aug 2024 - Mar 2025

- Handled 50+ daily customer interactions, resolving inquiries with empathy and precision, while maintaining 90%+ satisfaction rating
- Collaborated with cross-functional teams to relay recurring technical issues, enhancing service workflows.
- Strengthened real-time problem-solving, active listening, and stakeholder communication skills — foundational for client-focused web development

Data Analytics • Internship
Shape My Skills, Delhi

Jul 2024 - Aug 2024

- Analyzed the World Happiness dataset and performed data cleaning to remove irrelevant and duplicate entries.
- Built a machine learning model that achieved 95% accuracy in predicting happiness scores based on socioeconomic indicators.

[Portfolio link ↗](#)

PROJECTS

[Developed APIs with Node.js and Express.js for Shoppyglobe ↗](#)

Apr 2025 - May 2025

- Designed and developed a scalable backend for the Shoppyglobe e-commerce platform using Node.js, Express.js, and MongoDB, implementing RESTful API endpoints for product listing, user registration, authentication, and cart management.
- Integrated token-based authentication with JSON Web Tokens (JWT) to ensure secure user sessions and smooth front-end/backend communication, emphasizing performance, scalability, and data integrity.

[Shoppyglobe E-commerce Application ↗](#)

Mar 2025 - Apr 2025

- Built Shoppyglobe, a fully functional e-commerce platform with a responsive UI using React and React Router, featuring smooth navigation, real-time product data via API integration, and device-optimized performance.
- Utilized Redux for effective state and cart management, ensuring seamless user interactions and a consistent shopping experience throughout the application.

[Personal Portfolio Website ↗](#)

Dec 2024

- Built an example personal portfolio website using HTML and CSS to demonstrate front-end development skills, featuring a clean, responsive design that adapts seamlessly across devices.
- Focused on creating a visually appealing layout with effective navigation and UI elements to showcase project work, simulate professional presentation, and enhance user accessibility.

SKILLS

- | | | |
|--------------|---------------------------|-------------------|
| • JavaScript | • HTML | • CSS |
| • React | • Data Structures | • Redux |
| • Node.js | • Express.js | • MongoDB |
| • REST API | • Effective Communication | • Problem Solving |
| • Python | | |

[Developed YouTube-Inspired Platform ↗](#)

May 2025

- Developed a YouTube clone using the MERN stack with features including secure user authentication via JWT, video uploads with metadata, a seamless video player, and user interactions such as likes, comments, and shares to enhance engagement.
- Implemented a static subscription button UI, a search feature for video discovery, and a personalized recommendation system to tailor content based on user preferences.

[Weather Forecast Application ↗](#)

Jan 2025 - Feb 2025

- Developed a responsive weather forecast application using JavaScript, featuring real-time weather updates and future forecasts through asynchronous API requests and dynamic DOM manipulation.
- Focused on delivering a seamless user experience with a clean, accessible interface optimized for performance across different devices.
